

Project Datasheet

Project	Beatrice Offshore Windfarm
Scope	Transportation & spooling of cables

1. Project Overview

Beatrice Offshore Windfarm Ltd required transportation services of submarine cables from the cable fabricator in Norway to the Netherlands.

2. Scope of Work

Blue Offshore provided its BC01 system, with a basket carousel with an outer diameter of 23m. The system was mobilised onto the barge DAMEN TESS. Blue Offshore supported the loading of the cable from the shore facility into the BC01 System in Norway and the loadout of the cables from the BC01 System into an onshore storage static tank in Vlissingen, the Netherlands.

3. Timing

The project took place
September/October 2018.
