

Project Datasheet

Project	Bahrain LNG
Scope	Provision of 10Te deck tensioner

1. Project Overview

GS Engineering & Construction was awarded the engineering, procurement and construction contract for the development of the Bahrain LNG terminal project. Blue Offshore provided to GS Engineering & Construction a 10Te deck tensioner, control cabin and technician for the installation of subsea power cables off the coast of Bahrain, near Khalifa Bin Salman Port. The cables were provided by LS Cable & System. Blue Offshore's tensioner was mobilised onto barge HYUNDAI 1000. The installation activities took place in the summer of 2018.
